INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

(Chapter II of the Patent Cooperation Treaty)

(PCT Article 36 and Rule 70)

Applicant's or agent's file reference PT 06062WO	FOR FURTHER ACTION	See Form PCT/IPEA/416					
International application No. PCT/EP2003/013664	International filing date (day/month) 04 December 2003 (04.12.2						
International Patent Classification (IPC) or national classification and IPC F03B 11/04							
Applicant VOITH SIEMENS HYDRO POWER GENERATION GMBH & CO. KG							
This report is the international preling Authority under Article 35 and trans	 This report is the international preliminary examination report, established by this International Preliminary Examining Authority under Article 35 and transmitted to the applicant according to Article 36. 						
 This REPORT consists of a total of 4 sheets, including this cover sheet. This report is also accompanied by ANNEXES, comprising: (sent to the applicant and to the International Bureau) a total of sheets, as follows: 							
sheets of the description, claims and/or drawings which have been amended and are the basis of this report and/or sheets containing rectifications authorized by this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions).							
sheets which supersede earlier sheets, but which this Authority considers contain an amendment that goes beyond the disclosure in the international application as filed, as indicated in item 4 of Box No. I and the Supplemental Box.							
b. (sent to the International Bureau only) a total of (indicate type and number of electronic carrier(s)) , containing a sequence listing and/or tables related thereto, in computer readable form only, as indicated in the Supplemental Box Relating to Sequence Listing (see Section 802 of the Administrative Instructions).							
4. This report contains indications rela	4. This report contains indications relating to the following items:						
	Box No. I Basis of the report						
Box No. II Priority							
l —		ty, inventive step and industrial applicability					
· 🖺	Box No. IV Lack of unity of invention						
Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement							
I ==	Box No. VI Certain documents cited						
Box No. VII Certain defects in the international application							
Box No. VIII Certain observations on the international application							
Date of submission of the demand	Date of con	of completion of this report					
29 July 2004 (29.07.2	2004)	26 January 2005 (26.01.2005)

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

Box No.	• 1	Basis of the report								
 With regard to the language, this report is based on the international application in the language in which it was filed, unless otherwise indicated under this item. 										
	This report is based on translations from the original language into the following language which is language of a translation furnished for the purpose of:									
	international search (under Rules 12.3 and 23.1(b))									
	publication of the international application (under Rule 12.4)									
	international preliminary examination (under Rules 55.2 and/or 55.3)									
 With regard to the elements of the international application, this report is based on (replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report): The international application as originally filed/furnished 										
		scription:								
	pages	1, 2, 6, 8, 9		or originally filed/framished						
1	pages		this Authority on	, as originally filed/furnished 03 November 2004 (03.11.2004)						
İ	pages		this Authority on	05 11010Histi 2001 (05.11,2004)						
	the cl	aims:	_							
	pages			, as originally filed/furnished						
	pages	*	, as amended (to	gether with any statement) under Article 19						
	pages		this Authority on	03 November 2004 (03.11.2004)						
	pages	* received by	this Authority on _							
	the dr	awings:								
	pages	1/8-8/8		, as originally filed/furnished

	Industrial applicability (IA)	Claims		L - 7	YES
2	Citations and a law	Claims			NO

Citations and explanations

1. Closest prior art: FR-A-1 162 872 (D1).

Document (D1), which is considered the closest prior art, discloses a water turbine with an impeller wheel having a multitude of impeller blades and a hub.

The water turbine according to claim 1 differs from the prior art in that:

- the displacer expands in the direction of flow.
- 2. The problem addressed by the invention is that of producing a water turbine of the type described above, as known from (D1), which permits as irrotational a current as possible in the suction pipe.

The solution to the problem of interest is provided by the combination of features disclosed in claim 1.

The features of claim 1 are not anticipated in a manner prejudicial to novelty or suggested by the prior art cited in the description and in the search report.

Accordingly, claim 1 satisfies the requirements of PCT Article 33(2) and (3).

- 3. Claims 2 to 14 describe advantageous embodiments of the invention.
- 4. The industrial applicability of the invention is established.
